

# TROPHY MULE DEER HUNTS

West Elk Outfitters Mule Deer hunts are conducted in western Colorado. Hunt areas are by draw only and range greatly in preference points needed to obtain a tag. We have invested a lot of time and money in securing hunting

rights across the west for our clients and in doing so we now have hunts to suit almost every hunter. We hunt units 1,2,3, 301, 10, 201, 53, 63, 52, 521, 411, and 61.

Our hunts are generally 5 day hunts but understand if guys want to hunt the whole season. We can add days if you would like at \$500 per day. The hunting terrain can vary depending on unit. If you have mobility issues we still have great hunting opportunities for you.

What size of buck are you looking for? As with any hunting there are many variables that come into play when trying to kill a trophy mule deer. First you have to get your tag in an area that is producing big mature bucks. Here at WEO we have a great track record of finding the best bucks the unit has to offer. Our hunters average around 170-180 on bucks. We kill a few studs each year but most bucks are in the average. The potential for 180+ bucks is here but not behind each clump of oak brush.

WEO takes only a couple deer hunters in a unit per season. By not taking a mass of hunters we feel we can offer a more personal hunt and really concentrate on finding the buck that you are looking for. Additional guides and spotters are available if the hunter would like more eyes hunting for them.

Land Owner Vouchers. If you don't have any preference points but would still like to hunt you will need to submit a deposit to one of our landowners to secure your voucher. Vouchers will run from \$1000-\$3500.

Food, lodging and guide is included in your hunt cost for a 5 day hunt. You arrive the day prior to your hunt and leave the day following your hunt. Air travelers can fly into either Grand Junction or Montrose airports then rent a car to get to the lodge. Pick up can be arranged at a fee. Hunts are done out of trucks and sometimes atv but we let our eyes and optics do most of the hunting and cover as much ground as we can each day. Getting on a good vantage point and glassing is our most effective way of hunting. We will hunt as hard as you would like. If that means the deer are hunkered down due to warm weather we will be doing more hiking and hunting harder.

Gun range is available at the lodge (100yrd) to check rifles if needed. Gun cleaning kit is available also.

West Elk Outfitters has been successful in guiding several Statewide mule deer tags. These tags are purchased at auction. We attend these auctions and will bid for you while your on the phone with us if you need us to. Contact us early in January if your thinking of buying one of these tags as the auctions are early in the year.
